ISSAM CHOUQAIR

PharmD, PhD in Pharmaceutical & Chemical Sciences
• Life Sciences compliance & Translation
Casablanca, Morocco ischoc@gmail.com
• Languages: EN / FR / RU / AR

Target: pharma / biotech / medical complexes
Client context: Language Scientific / Compliance

Profile

Scientific and pharmaceutical background with advanced expertise in **multilingual scientific language**, terminology control, regulatory compliance, and semantic risk reduction in high-stakes documentation (drug development, preclinical data, technical dossiers, and regulated medical content). Strong ability to identify translation-critical ambiguities and support **MT evaluation / post-editing / terminology harmonization and compliance-driven linguistic validation for Life Sciences**.

Core Strengths (Life Sciences & Linguistics)

- **Scientific Translation QA**: meaning preservation, critical ambiguity detection, consistency checks.
- **Terminology & Ontology**: term standardization across EN/FR/RU/AR; disambiguation of mechanisms, indications, assays.
- **MT / NLP Collaboration**: feedback loops for specialized MT, error taxonomies, domain adaptation support.
- **Pharma & Preclinical Literacy**: synthesis, physico-chemical ID, in vitro/in vivo pharmacology, preclinical reasoning.

Languages

- Arabic (native) • French (fluent scientific) • English (fluent scientific) • Russian (fluent; academic training in Russia)

Selected Publications

Modular Psychoanalysis Theory
Chouqair, I.
International Journal of Psychoanalysis and Education: Subject, Action & Society, 2025.
DOI: 10.32111/SAS.2025.5.2.6

Tetrahydroquinoline Derivatives (analgesic candidates)
Chouqair, I.
Vestnik of Voronezh State University – Chemistry & Biology Series, 2008.
(Original in Russian; referenced in English context.)
PDF: vestnik.vsu.ru/.../2008-02-11.pdf

Professional Experience

Founder & Managing Pharmacist **2001 – Present**
Community Pharmacy (Casablanca)

- Established and managed a pharmacy operating continuously since 2001.
- Daily interface between clinical needs, medication knowledge, and medical documentation.

Team Leader – Financial Crime **May 2019 – Jun 2022**
Facepoints (ChapsVision Group), Casablanca

- Led an operations team focused on risk detection, complex-case analysis, and structured reporting.
- Worked with multilingual data; enforced precision, traceability, and process rigor.

General Manager **Jun 2022 – Oct 2023**
Marmette (Industry), Casablanca

- Executive leadership across operations, process oversight, decision-making, and documentation.

Education

Doctor of Pharmacy (PharmD) **1994 – 2000**
Joint faculty of the **Burdenko Voronezh State Medical Academy** and the **Voronezh State University** (Russia).

PhD – Pharmaceutical & Chemical Sciences **2003 – 2009**
Research covering:

- Invention and development of **tetrahydroquinoline-based** compounds (analgesic candidates).
- Original **synthesis route**, physico-chemical identification, and preclinical evaluation.
- Experimental pharmacology: **in vitro** and **in vivo** studies.

Scientific Leadership (Selected)

- Founder of the **Modular Paradigm** (fundamental physics) and the **Chouqair Grid** (mathematics).
- Founder of the **Chouqair Constant** applied to space–time structure.

Intellectual Property (Copyright)

U.S. Copyright Office certificate — include exact fields here (registration number, effective date, titles).

- Registration No.: **TXu 2-482-750**
- Effective date: **2025-02-10**
- Titles (group): **A New Perspective on Riemann Hypothesis; The Theory of Modular Energy; The Theory of Origin of life and Astrophysiology**

- Founder of the **Glacial Origin of Life** theory and **Cryogenic Kinetics** principles.
- Scientific collaboration with the **University of Arizona** on topics related to **quantum uncertainty control** and **quantum determinism** (foundational theorist of the framework).
